SUMMARY

Flutter Developer with 4+ years of experience building and maintaining production mobile applications, including ERP and e-commerce systems.

Hands-on experience in managing application state using Bloc, integrating REST APIs, and implementing local data persistence for offline usage.

Contributed to business-critical features such as accounting workflows, reporting, real-time tracking, and role-based access control.

Open to remote, hybrid, or on-site Flutter roles within product-driven teams.

PROFESSIONAL EXPERIENCE

03/2022 – present [Vetanoia](#) , Flutter Developer
Alexandria, Egypt

- Built and shipped GARAS ERP, a production Flutter app used by 3+ companies, covering accounting, admin, and reporting modules
- Implemented role-based access control and financial workflows powering business-critical operations
- Delivered Royal Tents, a 3D tent measurement and quotation app published on Google Play and App Store
- Architected apps using Clean Architecture with Bloc, integrating REST APIs and offline local persistence
- Reduced production crashes through unit testing, structured error handling, and offline-safe data persistence

WORK PROJECTS

GARAS ERP

- **Links :** [Google Play](#)  [App Store](#)  [Website](#) 
- **Description :** Full-scale ERP system for accounting, inventory, and reporting

Royal Tents

- **Links :** [Google Play](#)  [App Store](#) 
- **Description :** Field measurement app for tent manufacturers — converts on-site dimensions into 3D design previews and automated PDF invoices, replacing manual quotation workflows.

PERSONAL PROJECTS

[Flowery Store](#)

- **Description :** an e-commerce platform offering a seamless shopping experience for floral products. It features real-time order tracking, secure payment processing, and an intuitive user interface, making it easy for customers to browse, purchase, and receive their favorite flowers with ease.
- **Features :** User Authentication | Product Browsing | Shopping Cart | Real-Time Order Tracking | Secure Payment Processing | Delivery Notifications

[Flowery Delivery](#)

- **Description :** mobile app that facilitates real-time flower delivery tracking. It enables drivers to navigate efficiently with live maps and keeps customers updated on order status. The app also supports automated driver registration by scanning ID and license.
- **Features :** Real-Time Tracking | Notification System | Map Integration | Order Management | Automated Driver Registration

[Fitness App](#)

- **Description :** offering structured workout plans with instructional videos for all levels. It includes meal preparation guides with nutritional info and an AI chatbot powered by Gemini for personalized fitness and diet support. The app also features user authentication and a library of essential exercises.
- **Features :** User Authentication | Structured Workout Plans | Instructional Workout Videos | Meal Preparation Guides | AI-Powered Chatbot Assistance | Progress Tracking

Ele Quiz

- **Links :** [GitHub](#) 
- **Description : Ele Quiz!** This app is designed to help users improve their knowledge by taking quizzes in various subjects such as HTML, CSS,Flutter and JavaScript.
- **Features :** Browse Quizzes by Subject | Search for Quizzes | Take Timed Quizzes | Review Results | Learn from Mistakes Review incorrect answers with detailed feedback to enhance learning.

Shoply

- **Links :** [GitHub](#) 
- **Description :Shoply App** is a fully functional e-commerce mobile application designed to provide a seamless shopping experience for users.
- **Features :** User Authentication | Profile Management | Admin Features : Add & Edit Products | Add & Edit Categories for Products | Push Notifications | Show All Users | Clients Features : Browse products | Search Functionality | Receive Notifications

Bookly

- **Links :** [Google Play](#)  [GitHub](#) 
- **Description : Bookly** is a comprehensive mobile app designed for previewing and purchasing books and e-books. With Bookly, you can explore a vast collection of books and e-books, making it easier than ever to find your next captivating read.
- **Features :** Splash Screen | Home Screen | Details Screen | Web-View Screen .

SKILLS

State Management

Bloc | Provider

Architecture Patterns

Clean Architecture | MVVM | MVI

Unit Testing

Agile Development Methodologies

API Integration

RESTful APIs | GraphQL

App Configuration

Flutter Flavors

Version Control

Git | GitFlow

Software Design Principles

OOP | SOLID Principles
Design Patterns | Clean Code

Google Maps

Live Tracking | Search Places | Draw routes Poly Lines

Database Management

Firebase | SQL lite | Hive

Push Notifications & Tracking

Firebase Notifications | Maps | Real-time Tracking

Problem Solving & Algorithms

Data Structures | Problem Solving

CI/CD & Automation

Fastlane | GitHub Actions

EDUCATION

Alexandria, Egypt **Bachelor of Commerce**, Alexandria University

COURSES

2024 **Flutter Advanced bootcamp C1**, Elevate
Egypt

2023 Egypt	• Flutter Advanced Course Bloc and MVVM Pattern [Arabic]  , Udemy
